Treatment

- ❑ Rows 1 through 4: seed piece treatment; Heads-Up Plant Protectant, rate: 1 gm/l
- ❑ Rows 5 through 8 : Norland, BUT control rows with no treatment applied.

Field Trial Remarks

- ❑ June 15 picture: Note the colour difference in the treated plants in the left four rows.
- ❑ July 14 picture: the fourth row is treated Norland and the 5th through 8th are untreated. Note the increased flowering on the fourth row treated with HeadsUp.
- ❑ The August picture is the result of Early Blight and verticillium.
- ❑ In this test plot there were no other treatments and no foliar applications of fungicide.
